Egypt's New Tariff Lines: Little Impact on Food and Agricultural Products

Report Categories:

Agricultural Situation, Agriculture in the Economy, Agriculture in the News, FAIRS Subject Report
SP1 - Expand International Marketing Opportunities, SP2 - Prevent or Resolve Barriers to Trade that
Hinder U.S. Food and Agricultural Exports

Approved By:

Ali Abdi, Minister-Counselor for Agricultural Affairs

Prepared By:

Ibrahim Al-Habbal, Marketing Assistant and Mariano J. Beillard, Senior Regional Agricultural Attaché

Report Highlights:

Presidential Decree No. 419/2018 amends some customs tariff categories previously listed in
Presidential Decree No. 184/2013. The amendments published in the official gazette on September 9,
2018, came into effect on 12 September. The new law seeks to conform Egypt's customs nomenclature
to the harmonized system (HS).

General Information:

Presidential Decree No. 419/2018 amends some customs tariff categories previously listed in Presidential Decree No. 184/2013. The amendments published in the official gazette on September 9, 2018, came into effect on 12 September.

The amended customs tariff schedule reaffirms Egypt's commitment to the international nomenclature for the classification of products [Harmonized System \(HS\) \(originally introduced in 1988 and with the latest changes/revisions entering into force in 2017\)](#). Egypt's customs tariff covers 5791 items, 60 percent of which are raw materials, capital and strategic goods. Intermediate goods (994 items) account for 17 percent of the new tariff schedule; consumer-oriented goods represent 20 percent.

Decree 419/2018 aims to bring Egypt's customs tariff into conformity with the latest version of the international harmonized system, to reform and eliminate distortions in tariff systems, to safeguard national interests, and to abide by international standards. The new tariff lines aim to protect industry and achieve a tariff balance between intermediate inputs and final products.

FAS Cairo has not discerned any meaningful tariff impact on food and agricultural products (see Appendix I). The main features of the amendments have been the inclusion of new, detailed HS codes for fish, fishery products, yoghurt and other imported food products. The amendments are not exceptional, taking place each five years to remain compatible with international standards.
