Report Highlights:

This report provides an unofficial translation of Appendix 23 of Circular 24/2017, dated November 15, 2017, of the Ministry of Agriculture and Rural Development (MARD) on the promulgation of Harmonized Schedule (HS) codes for specialized import and export goods subject to its management. For the first time, this Appendix details eight-digit HS codes for the list of aquatic animals and aquatic animal products subject to quarantine in Vietnam. No other change was made to the list of aquatic animals and aquatic animal products subject to quarantine provided under MARD's Circular 26/2016. MARD started officially applying these HS codes to imported aquatic animals and aquatic animal products starting from January 1, 2018 when Circular 24/2017 went into effect.

Summary:

On November 15, 2017, MARD issued Circular 24/2017 on the promulgation of HS codes for specialized import and export goods subject to its management. MARD did not notify this Circular to the World Trade Organization's SPS committee and put the new HS codes into effect on January 1, 2018.

This new Circular replaces all of MARD's preexisting regulations for HS codes and provides detailed new regulations based on Vietnam's current Harmonized Schedule for all import and export goods under the Ministry's management, including terrestrial animals and products thereof; aquatic animals and products thereof; plant products; pesticides, fertilizers, veterinary drugs, animal feed, logs and lumbers, products used in aquaculture, etc.

Another significant development is that, for the first time, MARD has provided HS codes for the list of aquatic animals and aquatic animal products subject to quarantine in Appendix 23 of Circular 24. The Appendix includes detailed HS codes, up to 8 digits, for live aquatic animals, such as fish, crustaceans, mollusk, amphibians, mammals and products thereof, such as frozen, chilled, fillet, dried, salted or in brine; smoked, meals and pellets of fish, crustaceans and mollusk; fish oil and fat, etc. However, the HS codes in Appendix 23 will apply for products imported for food use, food processing, animal breeding and other purposes (excluding products imported for feed ingredients, functional food, or production of non-edible products). For products derived from aquatic animals imported for feed ingredients, please see the HS codes provided in Appendix 22¹ of Circular 24. Post notes that no other change was made to the list of aquatic animals and aquatic animal products subject to quarantine provided under MARD's Circular 26/2016 regulating the quarantine of aquatic animals and aquatic animal products (see GAIN Report [VM6053](#)). Should U.S. exporters have any questions, please email: aghanoi@fas.usda.gov
