Food and Agricultural Import Regulations and Standards Report

FAIRS Export Certificate Report

Approved By:

Christine Strossman, Agricultural Counselor

Prepared By:

Nergiz Ozbag, Sr. Agricultural Specialist

Report Highlights:

This FAIRS Export Certificate Report for Turkey 2018 lists the major export certificates and other requirements expected by the Turkish government for food and agricultural products imports to Turkey. This report should be read in coordination with the Food and Agriculture Import Regulations and Standards FAIRS Annual Country Report for Turkey, which outlines specific requirements for food and agricultural products imports into Turkey. It was prepared by the Office of the USDA Foreign Agricultural Service in Ankara, Turkey for U.S. exporters of food and agricultural products.

Food and Agricultural Import Regulations and Standards for the Republic of Turkey

FAIRS Export Certificate Report 2018

Disclaimer

This report is prepared by the Office of Agricultural Affairs of the USDA/Foreign Agricultural Service in Ankara, Turkey, for U.S. exporters of food and agricultural products. While every possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. Exporters should also check FSIS Export Library online and APHIS IREGS website to ensure there is approval for sending products to Turkey.

FINAL IMPORT APPROVAL OF ANY PRODUCT IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

SECTION I. EXPORT CERTIFICATES MATRIX

This is the list of certificates required by Turkey for import of food and agriculture products.

Product	Title of Certificate	Attestation Required on Certificate	Purpose	Requesting Ministry
Animals, certain animal products, certain plants (listed in FAIRS Annual Country Report for Turkey)	Control Certificate	It is an import license that states whether or not the product is eligible for importation	Import License	MinFAL
Sheep/Goat Intestines (Cleansed-Untreated)	Veterinary Health Certificate	Animal health attestation, Public health attestation	Animal Health, Public Health	Ministry of Food, Agriculture, and Livestock (MinFAL)
Female Breeding Cattle	Veterinary Health Certificate	Health status of animals	Animal Health	MinFAL
Domestic Rabbits	Origin Veterinary Health Certificate	Identification and origin of animals, Health status of animals, Health status of the colony of	Animal Health	MinFAL

		origin, Health Status of the United States		
Registered Equidae (horses) for breeding and production	Health Certificate	Health information of animals	Animal Health	MinFAL
Ovine and Caprine semen (sheep and goat semen)	Health and Origin Certificate	Health information of animal country and zone information of animals and semen	Animal Health, Product safety	MinFAL
Breeding Bull	Origin and Veterinary Health Certificate	Health status of animals Health Status of the United States	Animal Health	MinFAL
Domestic Bovine Animals intended for fattening	Veterinary Health Certificate	Health information	Animal Health	MinFAL
<i>In vivo</i> derived embryos of domestic animals of the bovine species	Veterinary health certificate	Health information	Animal Health, Product safety	MinFAL
Honey and apiculture products intended for human consumption	Veterinary Health Certificate	Honey is coming from bee hives in which the American foulbrood disease does not occur and honey is fit for human consumption	Animal Health, Public Health	MinFAL
Animal products for the manufacture of technical products (including pharmaceutical products)	Health Certificate	Animal products that satisfy the animal health requirements specified in the certificate	Animal Health, Product safety	MinFAL
Domestic dogs, cats and ferrets	Veterinary Health and Origin Certificate	Country of origin, country of dispatch, Health information of animals	Animal Health	MinFAL
Poultry meat	Health Certificate	Animal health attestation, Public health	Animal Health, Public	MinFAL

		attestation	Health	
Horses for racing, competition and cultural events	Health Certificate	For the re-entry of registered horses for racing, competition and cultural events into Turkey after temporary export for a period of less than 30 days, Health information of animal	Animal Health	MinFAL
Animal casings	Animal Health Certificate	Health status of animals which casings derived from; Approval of establishments by the competent authority, certificate is for veterinary purposes only and must accompany the consignment until it reaches the Turkish border inspection post	Animal Health, Product Safety	MinFAL
Treated hides and skins of ungulates,	Animal Health Certificate	Health status of animals, Health Status of the exporting country, Safety of product	Animal Health, Product Safety	MinFAL
Live ratites (large, flightless birds)	Origin Veterinary Health Certificate	Health information of animal	Animal Health	MinFAL
Ovine and Caprine Semen	Health and Origin Certificate	Health information of animal	Animal Health	MinFAL
Domestic rabbits	Origin Veterinary Health Certificate	Health information of animal	Animal Health	MinFAL
Sheep's untreated wool	Animal Health Certificate	Health status of animals from which sheep's wool was obtained	Animal Health, Product safety	MinFAL

Sheep's treated wool	Animal Health Certificate	Health status of animals from which sheep's wool was obtained	Animal Health, Product safety	MinFAL
Semen of domestic animals of bovine species collected, processed and stored before 12/31/2004	Veterinary Health Certificate	Health information of animal, Origin of the semen	Animal health and product safety	MinFAL
Semen of domestic animals of bovine species	Veterinary Health Certificate	Health information of animal Origin of the semen	Animal health and product safety	MinFAL
Primates	Animal Health Certificate	Health information of animal	Animal Health	MinFAL
Animal casings to Turkey intended for export to the European Community	Animal Health Certificate	Animal Health Attestation	Animal Health	MinFAL
Bumble bees (Bombus Spp.) Bred under environmentally controlled conditions within recognized establishments (This certificate is valid from 01.01.2008)	Health Certificate	Health information of animal	Animal Health	MinFAL
Queen Bees And Queen Bumble Bees (Apis Mellifera And Bombus Spp.) and their attendants	Health Certificate	Health information of bees and hives	Animal health	MinFAL
Day-old chicks other than of ratites (This certificate is valid from 01/01/2015)	Veterinary Health Certificate	Animal health attestation, Public Health Additional Guarantees, Additional Health Requirements, Animal transport attestation	Animal Health ,public health	MinFAL
Hatching Eggs of Poultry other than of Ratites (This certificate is valid from 01/01/2015)	Veterinary Health Certificate	Animal health attestation Animal transport attestation	Animal Health	MinFAL
Fresh or chilled hides and	Veterinary Health	Health status of	Animal	MinFAL

skins of ungulates	Certificate	animals Health Status of the exporting country Safety of product	Health, Product safety	
Certain birds other than poultry(This certificate is valid from 01/01/2010)	Animal Health Certificate	Health information of animal	Animal Health	MinFAL
Fresh, chilled, frozen meat (carcass) of domestic bovine animals	Veterinary Health Certificate	Animal Health Attestation, Public Health Attestation	Animal health, Public health	MinFAL
Ova and Embryos of the Ovine and Caprine Species (Sheep and Goats)	Veterinary Health Certificate	Health information of animal	Animal health	MinFAL
Dairy Products For Human Consumption* <i>Note that as this certificate is being negotiated HS codes 04.01; 04.02; 04.03; 04.04; 04.05; 04.06; 15.17; 17.02; 19.01; 21.05; 21.06; 22.02; 28.35; 35.01; 35.02 or 35.04 are not eligible for export from the U.S. to Turkey at this time.</i>	Veterinary Health Certificate	Public Health Attestation, Animal health attestation	Animal health, Public health	MinFAL
Gelatin for human consumption	Veterinary Health Certificate	Health attestation	Animal health, Public health	MinFAL
Collagen for human consumption	Veterinary Health Certificate	Health attestation	Animal health, Public health	MinFAL
Egg Products for human consumption	Veterinary Health Certificate	Animal Health Attestation, Public Health Attestation	Animal health, Public health	MinFAL
Fishery products intended for human consumption	Veterinary Health Certificate	Public Health Attestation, Animal health	Animal health, Public	MinFAL

		attestation for fish, crustaceans of aquaculture origin	health	
Aquaculture animals for farming, relaying, put and take fisheries and open ornamental facilities	Veterinary Health Certificate	Health information Transport and labelling requirements	Animal health, Public health	MinFAL
Ornamental aquatic animals intended for closed ornamental facilities	Veterinary Health Certificate	Health information Transport and labelling requirements	Animal health	MinFAL
Wild carnivores	Animal Health Certificate	Health information of animals	Animal health	MinFAL
Fish Oil Not Intended For Human Consumption To Be Used As Feed Material or For Purposes Outside The Feed Chain	Veterinary Health Certificate	Health Information of product	Product safety	MinFAL
Processed Animal Protein Not Intended For Human Consumption, Including Mixtures And Products Other Than Pet food Containing Such Protein	Veterinary Health Certificate	Health Information of product	Product safety	MinFAL
<u>Dogchews</u> This certificate is valid from 3/1/2017	Veterinary Health Certificate	Health Information of product and animals from which the dogchews were produced	Product safety	MinFAL
Processed Pet Food Other Than Canned Pet Food This certificate is valid from 3/1/2017	Veterinary Health Certificate	Health Information of product and of animals from which the pet food was produced	Product safety	MinFAL
Hay and straw	Health Certificate	Health information of product and animal health status of hay or straw's origin area	Product safety	MinFAL
Canned Pet food This certificate is valid from 3/1/2017	Veterinary Health Certificate	Health Information of product and of animals from which the canned	Product safety	MinFAL

		food was produced		
Highly Refined Chondroitin Sulphate, Hyaluronic Acid, Other Hydrolysed Cartilage Products, Chitosan, Glucosamine, Rennet, Isinglass And Amino Acids Intended For Human Consumption This certificate is valid from 4/1/2017	Veterinary Health Certificate	Public Health Attestation	Public health	MinFAL
Plants and plant product	Phytosanitary Certificate	Plant health attestation	Plant health	MinFAL
Plants and plant product	Re-export Phytosanitary Certificate	Plant health attestation	Plant health	MinFAL
Food products of plant origin	Free Sale Certificate/Health Certificate	Product is fit for human consumption, sold freely in the country of origin	Food safety	MinFAL
Materials and articles in contact with foods	Declaration given by producer or exporter	Product is fit for contact with foods	Product safety, Food safety	MinFAL
Alcoholic beverages	Certificate of Age	According to legislation where necessary, aging period of product	Age of product	MinFAL

Section II. Purpose of Specific Export Certificate(s)

Please refer to the Matrix under Section I.

Section III. Specific Attestations Required on Export Certificate(s)

A **Phytosanitary Certificate** is required for unprocessed agricultural products such as cotton, oilseeds, grains, nuts, wood products, etc.

It should be issued by the relevant competent plant protection authority of the producing or exporting country according to the sample certificate provided in Appendix-I. The Certificate may also be issued in accordance to the International Standards for Phytosanitary Measures (ISPM)-12 rules, and must be issued in Turkish or English. Special conditions related to plant and plant products are given in Annex 4 of the Quarantine Regulation, which is available in Turkish [here](#).

Any information about special conditions should be provided clearly in Phytosanitary Certificate or can be supplied as an additional declaration by referring to the Phytosanitary Certificate's relevant section.

The Phytosanitary Certificate must be issued at most 14 (fourteen) days prior to the **shipment date**. However, for Certificates on which the **inspection date** and the **date of issue** are separately stated as it is the case in United States, the period between the **inspection date** of the product and the **shipment date** of the product must be at most 14 (fourteen) days. Inspection date of the product must be stated on the Phytosanitary Certificates issued after the shipment date. Exporters should take note that this regulation differs from EU regulations, which require that a commodity depart a country within 14 days of issuance of a phytosanitary certificate, not the inspection date.

There should not be any erasure or scrapings on the Phytosanitary Certificate. Each correction made on a certificate should be approved and signed by the relevant competent authority.

A **Free Sale Certificate/Health Certificate** is required for processed food and feed of plant origin, such as canned food, pet food of plant origin, vegetable juices, energy drinks, alcoholic beverages, etc. and for materials and articles which are intended to come into contact with food.

A Free Sale Certificate/Health Certificate should have one of the statements such as “product is sold and traded freely in USA”, “product is produced in compliance with the legislation of USA”, “product does not possess any risk to human and/or animal health”, “product does not possess any risk in the aspect of food and/or feed safety”, “test results of product are in compliance with legislation”, “product is fit for contact with food”.

GOT may not accept a certificate if the FDA does not include a statement such as “the product is sold and traded freely in the United States”. In some instances, this problem can be overcome by providing a Free Sale Certificate/Health Certificate from a government agency at the state or local level.

Free Sale Certificate/Health Certificates should be issued on behalf of producer or exporter and must be endorsed by the competent authority of the origin or exporting country.

MinFAL publishes the list of state or local certifying competent authorities which issue free sale certificate(s)/health certificate(s) recognized for food and feed of plant and plant origin from other countries, including the United States. The list is available for recognized U.S. competent authorities at: <http://www.tarim.gov.tr/Mevzuat/Talimatlar> in Turkish language. The current list of competent authorities recognized for the United States is given in Appendix-III. The USDA/FAS Office of Agricultural Affairs at the U.S. Embassy may need to provide Turkish officials with a document confirming the authority of the local or Federal certifier if not already included on the above list.

A copy of **Certificate of Age** is provided for products which require aging (such as whiskey) at the time of pre-notification of the product. The original copy of this certificate should be supplied at the time of import.

For the materials and articles which are intended to come into contact with food, a **declaration** from the producer or exporter is accepted as sufficient to meet Turkey's requirement. This declaration should

contain information such as the name and amount of product, the name and address of the producer or exporter, and the statement “product is fit for contact with foods”.

Veterinary Health Certificates are required for animal and animal origin products such as livestock, gelatin, collagen, hides and skins, dairy products, etc. Certificates under the name of “Health Certificate”, “Veterinary Health Certificate” or “Origin and Veterinary Health Certificate” guaranteeing animal health and public health status are accepted as Veterinary Health Certificates by MinFAL. Note that the Dairy Products For Human Consumption certificate is being negotiated, so currently dairy products for human consumption falling under HS codes 04.01; 04.02;04.03; 04.04; 04.05; 04.06; 15.17; 17.02; 19.01; 21.05; 21.06; 22.02; 28.35; 35.01; 35.02 or 35.04 are not eligible for export from the United States to Turkey.

A sample Veterinary Health Certificate will be provided at the time of receiving a Control Certificate (Please see Section VIII and Section IX of Turkey Import Procedures in the Food and Agricultural Import Regulations and Standards-FAIRS Country Report). The content of a sample veterinary health certificate should be exactly the same as the official veterinary health certificate, however, it may or may not contain attestation(s) as it is a “sample”.

MinFAL outlines a format for Veterinary Health Certificates for certain animal/animal-origin products. These formats are available at the MinFAL [website](#).

Please see some of those sample Veterinary Health Certificates for certain products at the links given in Appendix-IV. It is important to provide Veterinary Health Certificates with exactly the same content and format if the format is identified by MinFAL. If the format is not identified for the product in question, then the Veterinary Health Certificate should contain information such as:

- the name of the exporting country/region;
- the competent authority;
- the exporter;
- the importer;
- the country of origin;
- the species of animal from which the product is derived/produced;
- the description and amount of product;
- information related to transport, and;
- if it is for human consumption, the statement “fit for human consumption”
- for products not for human consumption, the intended use must be indicated, such as “for feed use”, “for soap industry”, etc.
- depending on the type of product, statements related to animal and/or public health.

MinFAL maintains a “List of banned countries & substances due to animal diseases” for animal and animal products on their website at <http://yasakli.gkgm.gov.tr/>. Some animal products on this list are only allowed to be imported after special treatment to eliminate risk(s). The Veterinary Health Certificate should contain a detailed description/information/process of this treatment as an additional declaration in that case. Additional declarations may also be given separately. In that case, the authority that issues the Veterinary Health Certificate must refer to the original Veterinary Health Certificate, and sign/stamp it.

A **Certificate of Origin** is also required for animal and animal-origin products to support the product's health status, with respect to the animal diseases of the producing or exporting country, if the origin is not indicated in the Veterinary Health Certificate.

Section IV. Government Certificate Legal Entry Requirements

A **Free Sale Certificate/Health Certificate**, unless indicated on otherwise, is valid for one year, but may not exceed the shelf life of the product.

Free Sale Certificate/Health Certificate should have the name and origin of the product, name of the producer or exporter, name and the signature of the person who issues it. If the Free Sale Certificate/Health Certificate is issued for a specific shipment, it should contain the lot number and the quantity (weight, volume or number of units) of the shipment in question.

For the products which are subjected to phytosanitary controls; a Free Sale Certificate/Health Certificate is not required if the product is accompanied by Phytosanitary Certificate.

Departure of the shipment *must be no later than 14 days following inspection*. Note that it is the inspection date and not the date of issuance of the Phytosanitary Certificate that initiates the 14-day clock. Shipments will be rejected if the time between inspection and the "shipment date" exceeds 14 days.

The original Phytosanitary Certificate should accompany products, and products may be rejected at the port if the original certificate does not accompany the products. Please see the HS CODES of plant and plant products which require an accompanying Phytosanitary Certificate in Appendix-II.

The following products do not need to be accompanied by Phytosanitary Certificate;

- Fresh and dried fruits and vegetables not exceeding three kilograms for own consumption
- Noncommercial bouquet of flower or garland not more than one unit
- Plant and plant products donated by foreign people to the government agencies or charitable institutions (quarantine controls are carried out at the customs and allowed to be in when they are cleared)
- Wooden packaging materials carrying goods and marked according to ISPM-15 rules

For alcoholic beverages, certificates issued by the competent authority of the country where the product is bottled are also acceptable.

MinFAL will accept the validity of **Veterinary Health Certificate** as indicated by the issuing authority. Unless indicated, for the animal products excluding genetic materials (30 days for genetic materials), validity of the certificate is seven days for products coming by air, fifteen days for products coming by road, 30 days for products coming by rail, and 60 days for products coming by sea. The original Veterinary Health Certificate must be provided when the animal or animal-origin product arrives at customs or border inspection posts.

According to the Turkish import regulation, export certificates for animals and animal products to Turkey have to be signed by an official veterinarian in exporting countries within two days prior to shipment. MinFAL removed the two days requirement from the regulation for semen shipments, and since February 2018, semen export certificates do not have to be endorsed within two days prior to shipment from the United States. MinFAL now accepts the export certificates to be endorsed within the validity period, which is 30 days, from the United States. [Here](#) is more information on the latest update to semen import regulations in Turkey.

Section V. Other certification/accreditation requirements

Before December 2011, the majority of food and non-food imports required a “**Control Certificate**” which is considered import pre-permission and states whether the product is eligible for import or not. However, according to the import regime adopted in December 2011, Control Certificates are required only for animal, animal products, and certain plant products. To learn more information about import requirements that apply or are associated with the products being certified in conformance with Turkish food and agricultural laws and regulations, please see Section VIII and Section IX of Gain Report Food and Agricultural Import Regulations and Standards-FAIRS Country Report for Turkey 2018.

APPENDIX-I - Sample Phytosanitary Certificate

BİTKİ SAĞLIK SERTİFİKASI/ PHYTOSANITARY CERTIFICATE
GIDA, TARIM VE HAYVANCILIK BAKANLIĞI/MINISTRY OF FOOD, AGRICULTURE AND LIVESTOCK

1.İhracatçının adı ve adresi 1.Name and address of exporter	2.BİTKİ SAĞLIK SERTİFİKASI 2.PHYTOSANITARY CERTIFICATE No : EC/TR

APPENDIX-III

MinFAL publishes on its website the list of competent certifying authorities recognized for food and feed of plant and plant-origin products in other countries, including the United States. MinFAL requires a statement from the USDA Foreign Agricultural Service Office of Agricultural Affairs (OAA) at the U.S. Embassy, Ankara to confirm the authority of certifying bodies that are not included on this list. The current list for U.S. is as follows:

List of Competent Authorities
1. Department of Agriculture and Forestry (Louisiana)
2. Allegheny County Health Department (Pennsylvania)
3. Bureau of the Department of the Treasury
4. US Department of the Treasury
5. South Carolina Department of Agriculture
6. Enterprise Florida
7. Federal - U.S. Department of Agriculture - Agricultural Marketing Service
8. Federal - U.S. Department of Agriculture - Animal and Plant Health Inspection Service
9. Federal - U.S. Department of Agriculture - Food Safety and Inspection Service
10. Federal - U.S. Department of Agriculture - Grains Inspection, Packers and Stockyards Administration
11. Federal - U.S. Department of Agriculture - National Organic Program
12. Federal - U.S. Department of Commerce - National Atmospheric and Oceanographic Administration
13. Federal - U.S. Department of Commerce - U.S. Commercial Service
14. Federal - U.S. Department of Health and Human Services - U.S. Department of Health and Human Services
15. Federal - U.S. Department of Health and Human Services - U.S. Food and Drug Administration
16. Federal - U.S. Department of Treasury - Alcohol and Tobacco Tax and Trade Bureau
17. State/Local - Alabama - State of Alabama Department of Agriculture and Industries
18. State/Local - Alabama - State of Alabama Department of Commerce
19. State/Local - Alabama - State of Alabama Department of Public Health
20. State/Local - Alaska - State of Alaska Department of Agriculture and Natural Resources
21. State/Local - Alaska - State of Alaska Department of Commerce, Community and Economic Development
22. State/Local - Alaska - State of Alaska Department of Environmental Conservation
23. State/Local - Alaska - State of Alaska Department of Health and Social Services
24. State/Local - Arizona - State of Arizona Department of Agriculture
25. State/Local - Arizona - State of Arizona Department of Health Services
26. State/Local - Arkansas - State of Arkansas Department of Agriculture
27. State/Local - Arkansas - State of Arkansas Department of Health, Food Protection Services Section
28. State/Local - California - State of California Department of Agriculture

29. State/Local - California - State of California Department of Health, Food Protection Services Section
30. State/Local - California - State of California Department of Public Health
31. State/Local - Colorado - State of Colorado Department of Agriculture
32. State/Local - Colorado - State of Colorado Department of Public Health and Environment
33. State/Local - Connecticut - State of Connecticut Department of Agriculture
34. State/Local - Connecticut - State of Connecticut Department of Public Health and Environment
35. State/Local - Delaware - State of Delaware Department of Agriculture
36. State/Local - Florida - State of Florida Department of Agriculture and Consumer Services
37. State/Local - Georgia - State of Georgia Department of Agriculture
38. State/Local - Hawaii - State of Hawaii Department of Agriculture
39. State/Local - Hawaii - State of Hawaii Department of Commerce
40. State/Local - Idaho - State of Idaho Department of Agriculture
41. State/Local - Illinois - State of Illinois Department of Agriculture
42. State/Local - Illinois - State of Illinois Department of Public Health
43. State/Local - Indiana - State of Indiana Department of Agriculture
44. State/Local - Indiana - State of Indiana Board of Animal Health
45. State/Local - Indiana - State of Indiana State Department Health
46. State/Local - Iowa - State of Iowa Department of Agriculture and Land Stewardship
47. State/Local - Iowa - State of Iowa Department of Inspection and Consumer Safety
48. State/Local - Kansas - State of Kansas Department of Agriculture
49. State/Local - Kentucky - State of Kentucky Department of Agriculture
50. State/Local - Kentucky - State of Kentucky Department of Public Health
51. State/Local - Kentucky - Bullitt County Health Department
52. State/Local - Louisiana - State of Louisiana Department of Agriculture
53. State/Local - Louisiana - State of Louisiana Department of Health and Hospitals
